BENEFITS
Shingleton Society members receive invitations to educational and recognition events from Duke Cancer Institute and Duke Health, including the annual Society Luncheon and Shingleton Awards Celebration.

SHINGLETON SOCIETY ANNUAL GIVING LEVELS:

Member – $1,000: Members are committed annual giving donors dedicated to supporting Duke Cancer Institute's physicians, researchers, and caregivers on our pursuit to eradicate cancer as we know it.

Founder – $2,500: Founders level, recognizes Dr. William Shingleton, the founding director of the Duke Comprehensive Cancer Center, now known as Duke Cancer Institute, for his dedication to the field of cancer research.

Ambassador – $5,000: Ambassadors level, recognizes annual donors who demonstrate their loyalty and commitment through their gifts to build upon Dr. William Shingleton's achievements and to create a cancer center that is internationally renowned for its cutting edge research, patient care and treatment.

Leadership – $10,000: Leadership level, paves the way for even greater research, health care, and education and for continuing philanthropy.

Innovator – $25,000: Innovation is central to Duke Cancer Institute's mission and a requirement to transform research, health care, and education to benefit society. Therefore, we celebrate those donors who are partners in our innovative spirit as members of the Shingleton Society Innovators level.

Join with us in the pursuit to end cancer...
THE SHINGLETON SOCIETY

The Shingleton Society honors the generosity of those who have made a gift of $1,000 or more during a fiscal year (July 1-June 30). The impact of this philanthropy is significant as Duke Cancer Institute continues its quest to extend and improve the lives of all people with cancer. The Shingleton Society pays tribute to Dr. William Shingleton, the founding director of Duke Comprehensive Cancer Center, now known as Duke Cancer Institute.

THE SHINGLETON AWARD

The Shingleton Award is the Institute’s highest volunteer honor and was established in 1987 as a tribute to Dr. Shingleton’s dedication in the field of cancer research and compassion as a physician. This award recognizes those individuals who, through their extraordinary volunteer service and support, build on the achievements of our founder and help sustain an institution that is internationally renowned for its leadership in cancer research and devotion to excellent patient care.

“We The Duke Cancer Institute serves as a national model for the way cancer programs should be structured - coordinating research activities, patient care, and education under one umbrella. Duke has all of the pieces of this puzzle, and I feel privileged to be asked to lead this effort.”

—Michael B. Kastan, MD, PhD
Executive Director, Duke Cancer Institute
William W. Shingleton Professor, Pharmacology and Cancer Biology

WE INVITE YOU TO JOIN US IN OUR

Fight Against Cancer...

More than 1.67 million new cases of cancer will be diagnosed this year...1 in every 3 women and 1 in every 2 men can expect a cancer diagnosis in his or her lifetime. But at Duke Cancer Institute, we are working to change those statistics, to eliminate cancer as we know it—for people everywhere.

From our researchers in the lab to the nurses at patients’ bedsides, the Duke Cancer Institute is committed to a compassionate experience for our patients, survivors, and their families and caregivers. This commitment drives our passion to move cancer research to the frontier of finding a cure.

Cancer is relentless, so are we.

TOGETHER WE CAN CHANGE

the Rules on Cancer

Shingleton Society donors fuel the work of our world-class Duke Cancer team. This committed group of annual donors stands shoulder-to-shoulder with physicians, researchers, and caregivers dedicated to improve the lives of those affected by cancer.

We are grateful that our donors have chosen to partner with us in such a meaningful way to ensure Duke Cancer Institute can continue breakthrough research. Together we can advance cancer discovery and research, enabling us to deliver tomorrow’s health care today!

DUKE CANCER INSTITUTE IS

Leading Discovery

At Duke, our talented faculty and staff work together across disciplines and boundaries that traditionally separate doctors and scientists. These partnerships enable Duke physicians to offer hundreds of clinical trials of new cancer treatment strategies, many developed at Duke. We are as adaptive and multiform as cancer itself — and it is not just Duke patients who benefit—patients and their loved ones nationally and around the world reap the rewards of Duke cancer research.

DUKE CANCER INSTITUTE IS

Leading Clinical Care

Inspired by the bravery of our patients, we have become unafraid to pursue even unconventional possibilities. When patients come to Duke Cancer Institute for care, they meet their entire health care team on one day, in one place. Before they leave, they receive an evidence-based, personalized action plan for their cancer treatment. Duke Cancer Institute’s unique structure makes all of this possible.
